

Exam : 190-710

Title : IBM Lotus Notes Domino 7

App.Development Foundation Skills

Ver : 12-31-07

QUESTION 1:

Mary has a Notes application that is used by employees in Europe and Japan. Each group of employees has a server located in its own geographical location. Mary needs to have versions of her application in both locations for efficient access, and the application data and design must stay synchronized in both locations. How can Mary accomplish this?

- A. Create a copy of the database in both locations with the menu option File>Database>New Copy.
- B. Create a replica of the database in both locations with the menu option File>Replication>New Replica.
- C. Create a mirror copy of the database in both locations with the menu option File>Database>Mirror Database.
- D. Create a synchronized copy of the database in both locations with the menu option File>Synchronization>New Copy.

Answer: B

QUESTION 2:

Herb has some data to display in a form, and he would like to have it appear in a formatted grid. What option would he use to format this data layout?

- A. Create > Grid
- B. Create > Table
- C. Create > Data Layout
- D. Create > Formatted Display

Answer: B

QUESTION 3:

Jayne has asked her Domino server administrator to enable document locking on the server. Which of the following must she do to enable it for her application?

- A. Enable the "Allow document locking" database property.
- B. Create a view column for the locked document view icon.
- C. Add a profile document to the database to manage the locked documents.
- D. Enable document locking at the view level for each view in the database.

Answer: A

QUESTION 4:

Colby has a default level access of Author in the Suggestion database. She created a new

suggestion, but was unable to edit the document later. Why would this problem occur?

- A. The document does not have a Readers type field.
- B. The document form does not have an Authors type field.
- C. She needs the "Edit document" option added to her access.
- D. She needs at least editor access to edit her documents in the database.

Answer: B

QUESTION 5:

Erin has created a new view in her mail file, and she doesn't want the view removed when the design is refreshed from the main design template. What setting will keep her view from being deleted?

- A. "Prohibit design refresh or replace to modify" in the View Properties dialog box
- B. "Prohibit design refresh or replace to modify" in the Database Properties dialog box
- C. "Prohibit design refresh or replace to modify" in the Design Document Properties dialog box
- D. "Prohibit design refresh or replace to modify" in the Template Design Properties dialog box

Answer: C

QUESTION 6:

Cam has created a new design for her Video application. Cam would like to post the design to the server and make it available so other databases can automatically inherit the design changes when the DESIGN server tasks runs. Which of the following should Cam do to make the new design available on the development server?

- A. Copy the database to the development server, and name it "newvideo.ntf".
- B. Copy the database to the development server, and name it "newvideo.nsf".
- C. Copy the database to the server, name it "newvideo.ntf", select "Inherit design from master template", and give it a template name in the database Design properties.
- D. Copy the database to the development server, name it "newvideo.ntf", select "Database file is a master template", and give it a template name in the database Design properties.

Answer: D

QUESTION 7:

Sal wants to allow Jackie to create and modify documents in his Video application, but he doesn't want Jackie to make a local replica or copy of the database. Which of the following should Sal do to accomplish this?

- A. There is no way for Sal to do this.
- B. Give Jackie Author access on the database ACL.
- C. Give Jackie Editor access and deselect "Replicate or copy documents" in the database ACL.
- D. Give Jackie Editor access on the database ACL and assign a role that prevents him from replicating or copying documents.

Answer: C

QUESTION 8:

Christopher is making a new database using the "NewVideo" Design Template that he plans to customize. He wants to make sure that his new application will not get future modifications to the "NewVideo" Design Template. Which of the following should Christopher do to accomplish this?

- A. Create a blank database and refresh the design of the new database using the "NewVideo" Design Template.
- B. Create the new database from the "NewVideo" Design Template and deselect "Inherit future design changes" in the New Database dialog box.
- C. Create the new database from the "NewVideo" Design Template and then open the database Design properties and select "Database is a master template."
- D. Create the new database from the "NewVideo" Design Template and then open the database Design properties and select "Database file is a master template."

Answer: B

QUESTION 9:

AJ wants to create a new application on his laptop that does not have any design elements in it. Which of the following should he do to begin this process?

- A. Select File > Database > New and give it a filename of "blank.nsf".
- B. Select File > Database > New and choose local as the server, then choose the blank template.
- C. Select File > Database > New, choose local as the server, then choose the default.ntf template.
- D. Select File > Database > New, give it a filename of "blank.nsf", and chose the blank template.

Answer: B

QUESTION 10:

Clarissa has created a view of videos that are currently checked out. She would like to

display a stoplight icon in the view for videos that are overdue. What column property does she need to select to accomplish this?

- A. Show icons only
- B. Use icon as value
- C. Show custom icon image
- D. Display values as icons

Answer: D

QUESTION 11:

Kristin wants to create an action in the Titles view. The code in the action is:

```
Field Type:= "Action";  
Field Director:= "Richard Clarke";  
""
```

When the user clicks the action, which of the following will be affected?

- A. The Video form
- B. All selected documents
- C. All documents in the database
- D. Documents defined by the selection formula in the view

Answer: B

QUESTION 12:

To capture the date a document is created, Maria uses @Today in a formula. However, when she edits a document and saves it again, the date changes from the creation date to the current date. Which of the following causes the date to change?

- A. The document was edited by another user.
- B. The formula was placed in a Computed field.
- C. She does not have the appropriate ACL access.
- D. The formula was placed in a Computed when Composed field.

Answer: B

QUESTION 13:

Juan has a form field that is designed to store Notes document links. He wants to make sure that no other types of information is stored in that field. How can Juan restrict information in that field?

- A. Create a Rich Text field with an object type of "Links".
- B. Create a Rich Text field with an Input Validation formula.

- C. Create a Rich Text Lite field with an object type of "Links".
- D. Create a Rich Text Lite field with an Input Validation formula.

Answer: C

QUESTION 14:

Luis needs to add a field to a form that will allow him to enter up to 500 kilobytes of data. What type of field should he use for this requirement?

- A. Text
- B. Rich Text
- C. Extended Text
- D. Expanded Text

Answer: B

QUESTION 15:

Orlando wrote an agent to generate a weekly email that summarizes all the activity in the Video Rental application. The database resides on the PROD01 server with a replica on the BACKUP01 server. He is receiving two copies of the email every week. What is the cause of this problem?

- A. The agent is set to run on "Any Server".
- B. The "Restart On Failure" setting has been selected.
- C. The agent is set to run on both "PROD01" and "BACKUP01".
- D. The agent is set to run on "Local" as well as the PROD01 server.

Answer: A

QUESTION 16:

Janean has been asked to add the company logo to each form in the Video Rental database. How can she do this and minimize potential future maintenance of the logo?

- A. Paste the logo into each form.
- B. Add a computed link to the logo in each form.
- C. Add the logo as an image hotspot in each form.
- D. Add the logo from the Shared Resources - Images area.

Answer: D

QUESTION 17:

Derek has created a view in the products.nsf database. Derek wants the Markup column

in the view to display the selling price of the item minus the cost. He wants this value to display in currency. Which of the following should Derek do?

- A. Use the @function @Currency in the column formula in the view.
- B. Select currency on the Numbers tab in the View Properties box.
- C. Select currency on the Numbers tab in the Column Properties box.
- D. Select currency on the Numbers tab in the Field Properties box of the cost field.

Answer: C

QUESTION 18:

Nadia would like to position overlapping blocks of content on a form in the Video application. She wants the flexibility to control the placement, size, and content of the information. Which of the following should Nadia use when creating her form?

- A. Layers
- B. Subforms
- C. Framesets
- D. Style sheets

Answer: A

QUESTION 19:

Hans is designing the Reviews application. The application will include two forms: Review and Response. In the view, the Response documents do not appear under the Review documents from which they were created. Which of the following could cause this to happen?

- A. Inheritance in the Review form was disabled.
- B. Shared field values were enabled on both forms.
- C. Shared field values and field definitions were enabled.
- D. Show Response documents in a hierarchy was not enabled.

Answer: D

QUESTION 20:

Which of the following accurately describes field names?

- A. They must be unique in a database.
- B. They must include text and a number.
- C. They can only be used once in a view.
- D. They can only be used once on each form.

Answer: D

QUESTION 21:

Which of the following best describes the use of hidden column formulas?

- A. Views can be hidden based on a formula.
- B. Hidden columns are not a supported feature.
- C. Table columns can be hidden based on a formula.
- D. View columns can be displayed or hidden based on a formula.

Answer: D

QUESTION 22:

Mary would like to display a collapsed section on her Video Catalog form. She has created a section but when she displays the form in the Notes client, the section always opens expanded. Which of the following should Mary do to collapse the section?

- A. Nothing; sections always open expanded.
- B. Modify the section default properties to collapsed.
- C. Modify the form properties to display all sections collapsed.
- D. Modify the section Opened for Reading property to auto-collapse.

Answer: D

QUESTION 23:

Kanesha has a view that should show both main and response documents to the user, but when she displays the view, only the main documents show. What is the cause of this problem?

- A. The response documents should be shown in a separate view.
- B. The view option "Include response documents" is not selected.
- C. The view option "Show response documents in a hierarchy" is not selected.
- D. The column option of "Show response documents in a hierarchy" is not selected.

Answer: C

QUESTION 24:

Which of the following formulas does Cheng use to change the value of the ReleaseDate field to today's date?

- A. ReleaseDate := @Today

- B. TEMP ReleaseDate := @Today
- C. FIELD ReleaseDate := @Today
- D. @ChangeField(ReleaseDate;@Today)

Answer: C

QUESTION 25:

Tony has added a Password field to the Rental Account form. What will he see when he types a value into that field?

- A. No characters will be shown as they are typed.
- B. Asterisks will be shown as each character is typed.
- C. The typed value is shown, but the encrypted value is stored in the database.
- D. The encrypted value of the field will be displayed as each character is typed.

Answer: B

QUESTION 26:

Luigi has been asked to create a view that shows the rental history of each video that's been checked out. The view should be sorted by the name of the video, and all the entries for a particular video should be grouped together. How would he accomplish this?

- A. Create a Grouping view with the VideoTitle field as the first column, and set the Sort option to Ascending.
- B. Create a view with the VideoTitle field as the first column, and set the Sort option for the view to Ascending - Categorized.
- C. Create a view with the VideoTitle field as the first column, and set the Sort option for that column to Ascending and the Type option to Categorized.
- D. Create a view with the VideoTitle field as the first hidden column, and set the Sort option for that column to Ascending and the Type option to Categorized.

Answer: C

QUESTION 27:

Yuki wants to add a field to her form that will allow multiple values to be selected or deselected by clicking next to the item. What type of field should she use?

- A. Text
- B. Checkbox
- C. Combobox
- D. Radio Button

Answer: B

QUESTION 28:

Which of the following is NOT an agent trigger event?

- A. On click
- B. After new mail arrives
- C. Before new mail arrives
- D. After documents are created or modified

Answer: A

QUESTION 29:

JoAnne lost a document she had been creating in a Domino application when the power in the building failed. How can she modify the application to prevent the document loss in the future?

- A. Activate "Allow Autosave" in the Form Properties.
- B. Create an action button with the Autosave @Command.
- C. Activate "Allow Autosave" in the Database Properties.
- D. Enable a background agent to periodically save any open documents.

Answer: A

QUESTION 30:

James needs to store a list of values in FieldA, and when the form is saved, he wants to sort the list before it is saved. Which of the following input translation formulas would accomplish this?

- A. @Sort
- B. @Sort(@ThisValue)
- C. @SortAscending(FieldA)
- D. @Sort("Ascending";"FieldA")

Answer: B

QUESTION 31:

Maria coded "Alpha, Beta, Gamma" as a list in a Notes formula. Which of the following indicates the syntax entered?

- A. "Alpha", "Beta", "Gamma"
- B. "Alpha"& "Beta"& "Gamma"
- C. "Alpha"; "Beta"; "Gamma"

D. "Alpha": "Beta": "Gamma"

Answer: D

QUESTION 32:

Dwain would like to change the font for his formula statements to make them easier to read. Where would he change that property?

- A. Form Properties dialog box
- B. Database Properties dialog box
- C. Designer Properties dialog box
- D. Programmer's Pane Properties dialog box

Answer: D

QUESTION 33:

Julie wants to have a view action display in a custom pop-up menu when the right mouse button is clicked. How can she do this?

- A. Set the Action bar to "Include in right mouse button menu".
- B. Set the Action button to "Include in right mouse button menu".
- C. Set the view property to "Include actions in right mouse button menu".
- D. Set the database property to "Include actions in right mouse button menu".

Answer: B

QUESTION 34:

Monroe needs to create an action button that will change a document from read mode to edit mode. What @Command should Monroe use to create this button?

- A. @Command([EditCurrent])
- B. @Command([EditDocument])
- C. @Command([SwitchMode];"Edit")
- D. @Command([ToggleMode];"Edit")

Answer: B

QUESTION 35:

Rich would like to create an action button that will create a new document using the Video form. What @Command can he use to accomplish this?

- A. @Command([NewDoc];"Video")

- B. @Command([Create];"Video")
- C. @Command([Compose];"Video")
- D. @Command([ComposeDoc];"Video")

Answer: C

QUESTION 36:

Melanie needs to add a SuspendAccount field on a form in the Video Rental database. Only users with the [AccountAdmin] role should be able to see this field. How should Melanie code the hide/when formula to hide this field?

- A. @hide("[AccountAdmin"];@UserRoles)
- B. @IsMember("[AccountAdmin"];@UserRoles)
- C. @HideWhen("[AccountAdmin"];@UserRoles)
- D. @IsNotMember("[AccountAdmin"];@UserRoles)

Answer: D

QUESTION 37:

Review the formula below, assuming that the Author field contains the following and the discrimination-string in the @Left formula is a blank:

Richard Clarke/Meadowlands/ACME

@Left(@Name([CN]; Author);" ")

Which of the following will the formula produce?

- A. Clarke
- B. Richard
- C. Meadowlands
- D. Richard Clarke

Answer: B

QUESTION 38:

Chere has a field in her document that stores the date and time the document was saved. What @Function will allow this value to be stored in the field?

- A. @If@IsDocBeingSaved;@Now;SavedDate
- B. @If@IsDocBeingEdited;@Now;SavedDate
- C. @If@IsDocBeingSaved;@Today;SavedDate
- D. @If@IsDocBeingEdited;@Today;SavedDate

Answer: A

QUESTION 39:

Jorge built a Ticket Tracking application that is accessed via a Web browser. When a user bookmarks a document in the browser, Jorge would like the bookmark title to show the date and status of the ticket. How would Jorge accomplish this?

- A. Use a Window Title formula of @Text(TicketDate) + " - " + TicketStatus
- B. Use a Browser Title formula of @Text(TicketDate) + " - " + TicketStatus
- C. Use a Bookmark Title formula of @Text(TicketDate) + " - " + TicketStatus
- D. Create a \$WindowTitle field with a formula of @Text(TicketDate) + " - " + TicketStatus

Answer: A

QUESTION 40:

Which of the following should Cathy use to sort a list?

- A. @Sort
- B. @Sortlist
- C. @DataSort
- D. @ListOrder

Answer: A

QUESTION 41:

Joline needs to create a field that takes the first three characters of the FirstName field and the last three characters of the LastName field as part of a subscriber key. Which statement would give her that information?

- A. @SubStr(FirstName + LastNmae;3;3)
- B. @Left(FirstName;3) + @RIGHT(LastName;3)
- C. @First(FirstName;3) + @Last(LastName;3)
- D. @Right(FirstName;-3) + @Left(LastName;-3)

Answer: B

QUESTION 42:

Which of the following describes who will be able to see an existing document that contains a Readers field?

- A. Only those people listed in the access list
- B. Anyone listed as a Reader or above in the ACL
- C. Only those people listed in the Readers field

D. Anyone listed as a Reader or above in the ACL who is also listed in the Readers field

Answer: D

QUESTION 43:

The Video application ACL supports 3 types of users:

1. Users who can only view information in the application
2. Users who can view, enter, and edit information they have entered in the application
3. Users who can view and modify any document in the application

Cyd created groups in the Directory to hold the names of the different user types:

1. Video Viewers
2. Video Creators
3. Video Modifiers

Cyd adds the three groups and wants to control the access of different users. In which one of the following ways should he assign access levels?

- A. 1. Video Viewers = Reader
2. Video Creators = Author
3. Video Modifiers = Editor
- B. 1. Video Viewers = Reader
2. Video Creators = Editor
3. Video Modifiers = Manager
- C. 1. Video Viewers = Reader
2. Video Creators = Editor
3. Video Modifiers = Editor
- D. 1. Video Viewers = Readers
2. Video Creators = Depositor
3. Video Modifiers = Designer

Answer: A

QUESTION 44:

Pedro created a document in the Suggestion database. After saving and closing the document, he was unable to see his document or any other documents in the main view. What level of access does Pedro have in the Suggestion database?

- A. Author
- B. Editor
- C. Depositor
- D. No Access

Answer: C

QUESTION 45:

Which of the following statements about an Authors field is true?

- A. It can only contain one name.
- B. Users listed in the field can also read the document.
- C. It must be computed using @Author as the default formula.
- D. Users listed in the field are allowed to compose documents using that form.

Answer: B

QUESTION 46:

Herb has some data to display in a form, and he would like to have it appear in a formatted grid. What option would he use to format this data layout?

- A. Create > Grid
- B. Create > Table
- C. Create > Data Layout
- D. Create > Formatted Display

Answer: B

QUESTION 47:

Mary has a Notes application that is used by employees in Europe and Japan. Each group of employees has a server located in its own geographical location. Mary needs to have versions of her application in both locations for efficient access, and the application data and design must stay synchronized in both locations. How can Mary accomplish this?

- A. Create a copy of the database in both locations with the menu option File>Database>New Copy.
- B. Create a replica of the database in both locations with the menu option File>Replication>New Replica.
- C. Create a mirror copy of the database in both locations with the menu option File>Database>Mirror Database.
- D. Create a synchronized copy of the database in both locations with the menu option File>Synchronization>New Copy.

Answer: B

QUESTION 48:

Jayne has asked her Domino server administrator to enable document locking on the server. Which of the following must she do to enable it for her application?

- A. Enable the "Allow document locking" database property.
- B. Create a view column for the locked document view icon.
- C. Add a profile document to the database to manage the locked documents.
- D. Enable document locking at the view level for each view in the database.

Answer: A

QUESTION 49:

Erin has created a new view in her mail file, and she doesn't want the view removed when the design is refreshed from the main design template. What setting will keep her view from being deleted?

- A. "Prohibit design refresh or replace to modify" in the View Properties dialog box
- B. "Prohibit design refresh or replace to modify" in the Database Properties dialog box
- C. "Prohibit design refresh or replace to modify" in the Design Document Properties dialog box
- D. "Prohibit design refresh or replace to modify" in the Template Design Properties dialog box

Answer: C

QUESTION 50:

Sal wants to allow Jackie to create and modify documents in his Video application, but he doesn't want Jackie to make a local replica or copy of the database. Which of the following should Sal do to accomplish this?

- A. There is no way for Sal to do this.
- B. Give Jackie Author access on the database ACL.
- C. Give Jackie Editor access and deselect "Replicate or copy documents" in the database ACL.
- D. Give Jackie Editor access on the database ACL and assign a role that prevents him from replicating or copying documents.

Answer: C

QUESTION 51:

AJ wants to create a new application on his laptop that does not have any design elements in it. Which of the following should he do to begin this process?

- A. Select File > Database > New and give it a filename of "blank.nsf".
- B. Select File > Database > New and choose local as the server, then choose the blank template.
- C. Select File > Database > New, choose local as the server, then choose the default.ntf

template.

D. Select File > Database > New, give it a filename of "blank.nsf", and chose the blank template.

Answer: B

QUESTION 52:

Karen has posted a template, "newvideo.ntf", for the Video application on the development server. Denise wants to create a new Video application using the new template. Which of the following does Denise need to do?

- A. Find the "newvideo.nsf" template on the development server and make a new copy of it.
- B. Find the "newvideo.nsf" template on the development server and make a replica copy of it.
- C. Select File > Database > New, choose the development server as the template server, then choose the "newvideo.ntf" template.
- D. Select File > Database > New Copy, choose the development server as the template server, then choose the "newvideo.nsf" template.

Answer: C

QUESTION 53:

Which of the following database elements is NOT updated when the DESIGN task is run?

- A. Forms
- B. Views
- C. Roles
- D. Agents

Answer: C

QUESTION 54:

Colby has a default level access of Author in the Suggestion database. She created a new suggestion, but was unable to edit the document later. Why would this problem occur?

- A. The document does not have a Readers type field.
- B. The document form does not have an Authors type field.
- C. She needs the "Edit document" option added to her access.
- D. She needs at least editor access to edit her documents in the database.

Answer: B

QUESTION 55:

Which of the following @Functions refers to all "response" and "response to response" documents of parent documents?

- A. @Responses
- B. @AllChildren
- C. @AllResponses
- D. @AllDescendants

Answer: D

QUESTION 56:

Clarissa has created a view of videos that are currently checked out. She would like to display a stoplight icon in the view for videos that are overdue. What column property does she need to select to accomplish this?

- A. Show icons only
- B. Use icon as value
- C. Show custom icon image
- D. Display values as icons

Answer: D

QUESTION 57:

Jamie wants to add a field to his form that will allow a single value in a group to be selected by clicking next to the item. What type of field should he use?

- A. Text
- B. Checkbox
- C. Dialog List
- D. Radio button

Answer: D

QUESTION 58:

Juan has a form field that is designed to store Notes document links. He wants to make sure that no other types of information is stored in that field. How can Juan restrict information in that field?

- A. Create a Rich Text field with an object type of "Links".
- B. Create a Rich Text field with an Input Validation formula.

- C. Create a Rich Text Lite field with an object type of "Links".
- D. Create a Rich Text Lite field with an Input Validation formula.

Answer: C

QUESTION 59:

Wayne created a private agent in the Video Rental database, and he would now like to make it available for all users. How would he do this?

- A. Change the Private agent option to Shared.
- B. Remove the hide-when formula from the agent properties.
- C. Create a copy of the agent with the Shared option selected.
- D. Change the default access for viewing the agent to be "All readers and above".

Answer: A

QUESTION 60:

Kristin is creating a page in the Videos application. Which of the following statements about pages is NOT true?

- A. Pages are design elements.
- B. Pages can be full-text indexed.
- C. Pages can be referenced by outlines or frames.
- D. Pages can include text, graphics, applets, and links.

Answer: B

QUESTION 61:

Mary would like to display a collapsed section on her Video Catalog form. She has created a section but when she displays the form in the Notes client, the section always opens expanded. Which of the following should Mary do to collapse the section?

- A. Nothing; sections always open expanded.
- B. Modify the section default properties to collapsed.
- C. Modify the form properties to display all sections collapsed.
- D. Modify the section Opened for Reading property to auto-collapse.

Answer: D

QUESTION 62:

JoAnne lost a document she had been creating in a Domino application when the power in the building failed. How can she modify the application to prevent the document loss

in the future?

- A. Activate "Allow Autosave" in the Form Properties.
- B. Create an action button with the Autosave @Command.
- C. Activate "Allow Autosave" in the Database Properties.
- D. Enable a background agent to periodically save any open documents.

Answer: A

QUESTION 63:

Janean has been asked to add the company logo to each form in the Video Rental database. How can she do this and minimize potential future maintenance of the logo?

- A. Paste the logo into each form.
- B. Add a computed link to the logo in each form.
- C. Add the logo as an image hotspot in each form.
- D. Add the logo from the Shared Resources - Images area.

Answer: D

QUESTION 64:

Hans is designing the Reviews application. The application will include two forms: Review and Response. In the view, the Response documents do not appear under the Review documents from which they were created. Which of the following could cause this to happen?

- A. Inheritance in the Review form was disabled.
- B. Shared field values were enabled on both forms.
- C. Shared field values and field definitions were enabled.
- D. Show Response documents in a hierarchy was not enabled.

Answer: D

QUESTION 65:

Gary wants to have a list of users in a field on a document. The user names should be Sametime-aware, but they shouldn't control security to the document. What type of field should Gary use?

- A. Names
- B. Author
- C. Reader
- D. Rich Text

Answer: A

QUESTION 66:

Kristin wants to build an action which exits the Video form. Which of the following will accomplish this?

- A. @Command([Back])
- B. @Command([FileExit])
- C. @Command([GoToView])
- D. @Command([FileCloseWindow])

Answer: D

QUESTION 67:

Tony has added a Password field to the Rental Account form. What will he see when he types a value into that field?

- A. No characters will be shown as they are typed.
- B. Asterisks will be shown as each character is typed.
- C. The typed value is shown, but the encrypted value is stored in the database.
- D. The encrypted value of the field will be displayed as each character is typed.

Answer: B

QUESTION 68:

Takako has created a view that shows the entire inventory of videos in the Video Rental application. She would like to give the user the ability to sort on the title, studio, and last rented date columns. How would she accomplish this?

- A. Set each column's Sort option to Custom.
- B. Set each column's Sort option to Ascending.
- C. Set the "Allow custom sorting" option for the view.
- D. Set the "Click on column header to sort" value to Both for all three columns.

Answer: D

QUESTION 69:

Derek has created a view in the sales.nsf database. Derek wants the Sales Value column in the view to be punctuated to display two decimal places. Which of the following should Derek do?

- A. Use the @function @Decimal in the column formula in the view.
- B. Select decimal on the Numbers tab in the View Properties box.
- C. Select decimal on the Numbers tab in the Column Properties box.
- D. Use the @function @Decimal to format the value in the field on the form that will be displaying in the view.

Answer: C

QUESTION 70:

Benton would like to build a view with the response documents indented under the main documents. How would he accomplish this?

- A. Set the view option "Indent response documents".
- B. Set the view sorting option to "Indent response documents".
- C. Add a column to show response document information, and select the "indent responses" option for that column.
